# Finding My Inner Peace Community Film Poems

To continue Benjamin's legacy, we are inviting you to **write a poem about finding inner peace** and to record yourself reading it. You can share your filmed performance and relevant visuals on World Poetry Day. Clips from your footage will be edited **for a series of community film poems**.

The editing process will allow all contributors to feedback and consent to the published films.

**Contact us if you are interested** and need more information and support on all aspects of the project:  
- the theme, filming, uploading and editing process.

Phone footage is welcomed but has to be sent on **21<sup>st</sup> or 22<sup>nd</sup> March** or it won't be accepted.

We encourage people of all ages, backgrounds and abilities to take part.
